Digitalizing General Education Certificates - obstacles

Comprehensive and centralised data since 2014

- In Estonian language
- Not all data is in EHIS. Some of valuable information is in local infosystems.
- „Europass wallet“ e-mail -> Contact mail provided by Education Institution is valid till 6 months after graduation.

europass

Digitalizing General Education Certificates - solutions

- Centralised translation of General Education curricula
- Gradually fill the incomplete fields
- To use state provided e-mail: name.surname@eesti.ee

Conclusions

- We hope to conclude the GE testing 2022
 - 2023 Implementation of Europass SC issuer
 - 2023 testing with Higher Education
 - 2023/24 testing with Vocational Education
- Cooperation with EMREX and ENIC-NARIC
- We will use soft ways to influence educational institutions so that more fields can be filled in EDCL
- In the development of the information systems, we consider the section on additional certificate types to be compatible with EDCL
